

Drive the change!

Volvero, an app for iOS and Android based on the most innovative technologies that allows users to share their vehicles with the community, in a simple, reliable and sustainable way. Volvero uniqueness is due to exclusive features that have the potential to totally redesign the urban mobility concept and to lead to substantial mindset changes. This is the power of Volvero as a real game-changer.

Why is Volvero different?

Volvero Peace & Safety

An easy and crystal-clear insurance policy, born from the collaboration between Volvero and the best insurance carrier in the EU to guarantee the peace of mind for our Drivers & Owners.

Advanced Technology

We actively research and scout innovative solutions. That's why we use Blockchain and AI technology. Through it we offer a secure environment for your data and transactions and a thorough telematic system for ensuring the safety of your vehicle, while rewarding cautious drivers.

Sustainability

Did you know that the pollution of 8 private cars can be avoided with only 1 car share? Volvero creates a new sustainable form of mobility, adding value to the existing resources: we promote social responsible behaviours.
