Accelerate the Digital Transformation with 5G / 6G

The TARGET-X project envisions accelerating the digital transformation of key verticals such as energy, construction, automotive, and manufacturing using large-scale trials in multiple testbeds.

By demonstrating, validating, and evaluating the potential of 5G/6G in real environments, technologies such as real-time communication, localization, self-description, digital twinning, and sensor-network data fusion can be tested and evaluated.

KEY VISUAL INFORMATION KEY VISUAL VARIANTS

Original colours

Use this version for white and light backgrounds.

Negative colours

Use the light version of the key visual on dark backgrounds.

Not allowed

Avoid using the key visual on backgrounds with insufficient contrast.

07

LOGO INFORMATION SAFETY ZONES

Logo Safety Zone

To ensure enough room around the logo we use whitespace of at least 20% of the logo dimensions.

Logo Usage

The Logo shall only be used in either its light or dark variant.

Circular Elements

These elements can be used without whitespace and can be placed into the bleed of the document.

Usage of Circular Elements

The placement of the circular Elements is completely free. It can overlay images or serve as a background on otherwise white pages.

08

KEY VISUAL INFORMATION COMPONENTS

Key Visual Components

The Key Visual consists of a stylized letter X, the tagline with the project's name (this element can be omitted) and an element consisting of several fading circles.

Letter

The „X“ in the key visual represents the main focal point and is derived from the project's name. It serves as a visual centerpiece, drawing attention to the core essence of the project.

Circles

The key visual's design elements reflect the project's focus on advanced technologies such as 5G and 6G. The use of circles can also represent connectivity, data exchange, and the network of sensors and devices involved in the project's trials and evaluations.
